

Thunderbolts

a digital zine, by Ruairc

★ RADIATOR WATER ★
CAR HOT TURN AIR CON OFF
DRIVE AT 2-2½ RPM
You SHOULD BE OK

NOT DOWN

'Thunderbolts Way' is a 300-kilometre scenic drive from Gloucester to Inverell, through New South Wales, Australia.

Encompassing both expansive vistas and the ordinary infrastructure of modern life, this zine is an excerpt from the *Thunderbolts* project that documents natural beauty and human intervention in coexistence. These photographs preserve record of an environment that continues to evolve with every passing season and change with each new development.
